In this tab, you can create and configure your corporate customer number(s) (BCA). Click on "Add BCA" to set the desired settings. If you want to change settings for an existing BCA, please click on the edit icon in the corresponding line. If you want to provide several employees with a link to the card application page, please copy the link in the yellow line below the respective company customer number. Any number of employees can submit an application via this link. If you only want to invite certain employees, please click on the "Employee Invitations" tab and choose one of the set up BCAs.

If you want to delete an individual BCA, click on the corresponding icon in the "Delete BCA" column or select the desired BCAs in the first column and then click on the "Delete Selected BCAs" button. If you delete a BCA which is managed together with other program administrators, it is only deleted from your overview, but not from that of the other program administrators.

With this link, employees at your company can apply for a Corporate Card. For example, you can send this link by email or publish it on your intranet. If you have been assigned multiple Business Control Account Numbers (BCAs), you will also see this here.

IMPORTANT: Each Business Control Account number has its own application link. This means that if the applicant is employed by the company with BCA number X, they need the application link for BCA number X, and not the application link for BCA number Y.

Set up your personal PA area

BCA SETUP

In BCA Setup you can configure your PA area, e.g. set up mandatory fields.

The screenshot shows the 'BCA Setup' tab in a web application. At the top, there are navigation tabs: 'Pending Applications', 'PA Setup', 'BCA Setup' (active), 'Employee Invitations', and 'History'. A 'Logout' button is in the top right. Below the tabs, a text box says: 'Enter a BCA of your company and choose a product, a liability type and an invoicing that is to be assigned to it.' Below this is a 'Customer number*' input field. A red arrow points from a text box to the 'Product Selection', 'Liability', and 'Invoicing' dropdowns. These three dropdowns are highlighted with a red box. Below them, another text box explains: 'You can use the field and the buttons below to give the applicant the option to provide personal information. If you enter the name of your company in the "Company" field, the applicant can no longer change it. You can use the toggle switch function to control whether the corresponding fields are displayed to the requester and also become mandatory fields.' Below this is a 'Company' input field followed by three toggle switches: 'Position', 'Cost centre', and 'Employee number'. Further down are two more toggle switches: 'Restrict card delivery options' and 'Allow document upload'. At the bottom, a text box says: 'By clicking on the respective buttons, you can configure how the applicant can carry out the legally required identification.' Below this are four toggle switches: 'WebID', 'Postident', 'Bank Identification', and 'In-House Identification'. A red arrow points from a text box to the 'Company' field and the toggle switches below it.

MORE FUNCTIONS
IN THE PA AREA

Providing appropriate application link for employees on the intranet or by email

Important technical note:

Please test the link before publication and **do not use a Word document** to send the application link to the employees.

As a rule, you can paste the application link generated via the BCA into an email or PDF. The applicant can then click the link directly.

There have been problems with links in MS Word files in the past as Microsoft changed the links for security reasons. When this happens, the applicants are not forwarded to the application you have personalised, but to the standard application. Here they are asked for a BCA number, which the applicant does not have.

Password management

PA SETUP

The screenshot shows the 'PA Setup' interface. At the top, there are five tabs: 'Pending Applications', 'PA Setup' (highlighted with a red box), 'BCA Setup', 'Employee Invitations', and 'History'. A 'Logout' button is in the top right corner. Below the tabs, a message states: 'Please enter your first and last name which you wish to be displayed to the applicants. The data you enter here is automatically copied for all BCAs you add and employee invitations you create.' There are two input fields: 'Full name*' with the value 'Test PA' and 'Personal work email address' with the value 'test@test.com'. Below these, another message says: 'Please enter your desired password. If you want to change your password, you can do so here.' There are two password input fields: 'Password' and 'Repeat new password', both containing the placeholder text 'Password is set'. A blue box highlights these two password fields. At the bottom left, there is a note '* Mandatory'. At the bottom right, there is a blue 'Save' button highlighted with a green box.

In the **PA Setup** tab, the PA/authorized signatory can **manage their password for the PA tool**. Changes must be **saved** directly for them to take effect.

Frequently Asked Questions (FAQ)

Frequently Asked Questions

Is the email notification for open requests sent only to the PA entered in the request or to all Programme Administrators who have access to the same BCA?

There are two different cases:

- 1. The applicant used the general link to open the application:** Email notifications and reminders are sent only to the PA entered.
- 2. The applicant uses a BCA link or invitation to open the application:** Email notifications and reminders are sent to all PAs listed for each BCA.

Can different PAs have the same team email address in their profiles or do they have to have different email addresses?

It is not possible to set up two or more PAs with the same email address for a BCA. If a team email address is used by several PAs, the name of the PA that checks the request can be entered in a free text field in the “detailed view” of the requests. This makes it possible to identify the approving PA.

Frequently Asked Questions

When an applicant opens the application via the general link, the card type, liability and invoicing can be selected. However, many applicants do not know the correct parameters. What happens if the wrong parameters are selected?

To avoid this, only BCA links and invitations should be used to apply for corporate cards. If this option is still used, the parameters selected must be checked by the PA. The “Send back” function can then be used to return the application to the applicant if incorrect parameters have been selected. Applications with incorrect card parameters will not be processed by American Express.

[How long will applications remain in the system?](#)

After the applicant has submitted the application, it remains in the system for 30 days. During this time, the applicant must identify themselves and the PA must give their approval, return the application, or reject it. After 30 days, the application will be deleted.

[Are BCAs from AFC 1.0 automatically imported into AFC 2.0?](#)

No BCAs are not imported automatically. However, PAs can manually transfer the BCAs from AFC 1.0 to AFC 2.0 and set them up in the PA tool under “BCA Setup”.

Frequently Asked Questions

How can a PA that does not yet have access to AFC 2.0 receive it?

There are two different cases:

- 1. The PA is already registered with American Express:** Open www.amex.de/antraege. Enter your BCA and email address there. Then click “Request link to BCA administration”. You will now receive a link with which you can access the PA tool.
- 2. The PA is not yet registered with American Express:** Open www.amex.de/antraege. You can download the form for setting up PAs here. Fill this out and send it to American Express. After this has been checked, you will receive a notification with the access link to the PA tool.

Questions?

If you are a PA/authorised signatory and have questions about a specific application, please call our Corporate Service Team on +49 69 9797 3550 (Mon–Fri 8am–6pm).

If an applicant has a question, he can refer to his PA/authorised signatory of his company.
