Starting Your New Programme

At the start of a new programme, you and your Accounts Payable team need to be familiar with:

- The full 16-digit bank references number starting 3751 0 (if making payment to an individual account).
- The programme currency.
- The programme country.
- Payment Terms and when payment is due.
- How the bill will be paid – by transferring payment to American Express, or by E-invoice.
- The correct American Express bank account number and reference number stated in the invoice needs to be used.

Experience working with numerous customers has shown us that it is helpful if your Accounts Payable team understand what needs to happen in order to pay American Express. Paying on time and providing all the necessary information to American Express enables us to process the payment correctly and reduces the risk of any of your employee Cardmembers being inconvenienced.

You will be assigned an Account Development or Implementation Manager who will work with you to design the reconciliation and payment process most suitable for your needs.

To Consider

Please pay particular attention to the country in which the Account is set up when paying your Corporate Card statements, American Express has separate bank accounts designated for each country. Each statement will display which account payments should be made to.

If you have Accounts in multiple Countries (e.g. Finland, Spain & France), you must pay each Account separately. American Express cannot accept combined payment across countries and currencies.

Please make sure your Accounts Payable team has all the details they need to make payment to the correct American Express bank account otherwise you may experience unnecessary delays or disruption to your experience.

Your Corporate Card Account must be paid separately. Please do not combine payments for other products that you may have with American Express.

How to Pay Your Corporate Card Statements

By E-invoice

You can enroll to E-invoicing via your online banking service. Once set up your invoices will be sent electronically to your bank. Some banks will notify you of new E-invoice via email or SMS.

E-invoice terms and conditions can be provided by your bank or via their website.

Electronic Funds Transfer

- When making an electronic funds transfer for one card account, or to pay the full account balance for multiple Card accounts, please use the stated 16 digit Bank reference number.
- When making an electronic funds transfer to pay a partial account balance for multiple Card accounts, please refer to the following page (How to send electronic remittance advice via email).
- Please send your payment three days in advance of the Account due date to avoid any delays, disruption or penalties.
- All payments are credited to the Account within one business day of receipt, providing all details have been received. We require separate payments for each product – you should not merge multiple products into one payment.

An Electronic Payment Allocation process is also available to streamline the current process. If you should be interested in more information please ask your Account development Manager for more information.

How to Send Electronic Remittance Advice via Email

At the same time as you make the payment, we also ask you to email an electronic remittance advice to finlandcashiers@aexp.com

Please quote the following information in the email subject line:

- Amount Paid
- Company Name
- Date of Payment

Example: 15,000 €, A Company LTD, 25/12/2019

The electronic remittance advice must be password protected in Excel format and include the following:

- 2 Columns.
- Corporate Card number in Column A. This must include full 15 digit Card number.
- Amount in Column B with decimal points removed e.g 5.00 € will be 500, 500.00 € will be 50000.
- Remove any Column Headers.
- The total in Column B must equal the payment amount made.
- Please send your **password** separately but with the same email subject line to finlandcashiers@aexp.com

Please note that the internet can be insecure. You must use a secure encryption method when sending personal data and/or documentation to us via email to safeguard your personal data.
