# Introduction to @ Work

@ Work is a secure portal that gives you access to several online services that support your different corporate programmes. As your company grows, you will be onboarding more and more employees and need a way to manage their Cards and monitor the total company spend. @ Work is the tool that empowers you to do this.

Our latest updates in @ Work include a revamped interface, task automation and fortified data security protocols, all aimed at elevating efficiency and safeguarding sensitive information.

# Introduction to Insights Hub

With a clear up-to-date view of spending, Cards, Delinquency and diverse supplier details, the Insights Hub provides you with powerful insights and analysis for more productive programme management, all within one comprehensive interactive platform.
