Section 1: American Express Maps and the Shop Small Map

1. What is American Express Maps?

American Express Maps displays qualifying American Express Card-accepting businesses with a physical business location for customers to easily find offers and benefits at the places they love and discover new favorite places. The Online Directory within American Express Maps lists qualifying businesses that only accept online transactions or those that do not have a physical business location.

When a business is on American Express Maps, customers can search for and see important information about the business, including business hours. The business may also be included in local recommendations that appear to Card Members on the Map, based on a Card Member's history of purchases at similar businesses.

A BACK TO TOP

2. What is the Shop Small Map?

The Shop Small Map is a filtered experience within American Express Maps. The Shop Small Map only displays U.S. businesses that meet certain Shop Small eligibility criteria. The criteria is outlined in <u>FAQ 6</u>. Note that businesses on the Shop Small Map also appear on American Express Maps.

Currently, only merchants who qualify for the Shop Small Map and merchants in certain select industries, such as Dining, Shopping, Entertainment, Travel, Services, and Business Services, are eligible.

5. What businesses are included on American Express Maps?

There are two ways a merchant can qualify to appear on American Express Maps. First, the merchant can appear on American Express Maps if they qualify for the Shop Small Map. For Shop Small Map qualification criteria, please see <u>FAQ 6</u>.

Second, they can appear on the American Express Maps (but not the Shop Small Map) if they satisfy the following criteria:

- Must be an American Express® Card-accepting Merchant; Must do business in one of our selected industries: dining, lodging, supermarkets, drugstores, office supplies, shipping, construction, wholesale, department/retail stores, computer hardware, computer software, cloud computing services, manufacturing, wireless telephone services, medical equipment, retail trade, home furnishings, hardware, and other services;

6. What businesses are qualified to appear on the Shop Small Map?

To appear on the Shop Small Map, Merchants must meet the following Shop Small-eligible criteria:

- Must be an American Express Card accepting Merchant;
- Must be located in the 50 United States, District of Columbia, American Samoa, Armed Forces Pacific, Federated States of Micronesia, Guam, Marshall Islands, Northern Mariana Islands, Palau, Puerto Rico, or the U.S. Virgin Islands. For brick-and-mortar businesses, this means that you must have at least one physical business location within these territories; for online-only businesses, this means that you must have a service area within these territories;
- Must have at least 1 but no more than 25 locations (for brick-and-mortar businesses) and have no more than \$5M in American Express annual charge volume.
- Must not be part of a franchise brand that has more than 250 stores; Additionally, if a franchise brand has more than 25 corporate-owned stores, then the entire brand is excluded;

- Must be enabled to accept American Express Cards. Merchants who have been with us for more than 12 months must have had at least 1 transaction in the last calendar year.

Additionally, the merchant may not automatically display on the Shop Small Map and may have to opt-in.

7. When searching for a business, why would it not show on the Map?

There could be a few reasons why a business may not display on the map:

- 1. American Express Maps only returns 100 businesses for each search. Our system takes into consideration a proprietary mix of factors to filter to those 100.
- 2. Filtering by industry or entering more of the address information may return different search results.
- 3. The merchant may not be qualified for American Express Maps.

△ BACK TO TOP

8. How is it decided which businesses to show to me?

When you are logged in, the businesses you see on the Map are curated to help explore new and relevant places nearby, while also showing places where you can find offers and benefits. The more the Card is used, the more relevant those business suggestions will be. When you are logged out, the businesses you see on the Map are what's most popular among Card Members in your area.

9. Why do some businesses have TripAdvisor reviews and ratings while others do not?

TripAdvisor reviews and ratings are displayed in cases where we have been able to link an American Express Merchant to a TripAdvisor listing.

△ BACK TO TOP

10. On American Express Maps, some Merchants are highlighted as Card Member Favorites. What does this mean?

Card Member Favorites are the exceptional local businesses Card Members can't live without. We tally up the places Card Members value and visit the most and designate them as Card Member Favorites. It's a way to recognize and thank these local spots and help Card Members discover more places to shop, eat, and enjoy.

When Card Members see that a business is a Card Member Favorite, they know that other Card Members value and visit this business the most. It is a sign of Card Member trust.

To learn more about the Card Member Favorite program, please visit <u>here</u>.

17. I am a merchant and I tried searching for my business on the Shop Small Map or Online Directory, but it did not appear in the search results. Why would this be happening, and what can I do?

Your business may not appear in the search results for a few reasons:

- 1) Your business location(s) may not qualify. Please review the current qualification criteria set forth in <u>FAQ 5</u> to see if your business location qualifies to appear on the Shop Small Map or Online Directory.

- 18. I am a merchant and my business has a physical location, but I also operate online. Can my business be included on both the Map and the Online Directory?

It depends. Each location displayed on the Map or Online Directory is tied to a unique Merchant Number, so you can only indicate one listing preference per Merchant Number. If you have separate Merchant Numbers for your physical store and your online business, you may include one on the Map and one on the Online Directory. However, if you use the same Merchant Number for both parts of your business, you will need to choose to be listed either on the Map or the Online Directory because you can't be listed in both.

- **△** BACK TO TOP
- 19. I provide a service, such as personal fitness training, and I don't have a storefront or online store. Can I be included on the Map or Online Directory?

Yes! You can include your business in the Online Directory. This directory is for businesses that do not have a physical address for shoppers to visit. When confirming or adding your business information, make sure you update your URL, and in the Servicing section, make sure "Card Members cannot visit location" is selected.

20. I am a merchant. Will updates to my public information change my billing or contact information that is on file with American Express or my third-party payment processor?

No. This process will only update your public information for use in Card Member account statements, Card Member recommendations, on the Map, Online Directory, and in other marketing channels.

If you need to make changes to your Merchant account information that American Express or your third-party payment processor uses to manage your account, please call the number on your monthly statement. Likewise, if you update your billing or other account information, these changes will not automatically be made to your Map or Online Directory listing.

21. My personal information is on the Map. I don't think I'm a business. How did this happen and how can I get this removed?

We can appreciate that you'd prefer to keep your home address and personal information private and we can help correct this situation. It is likely that your merchant service provider has enabled you to accept American Express Cards. All service providers send American Express information about their merchants, including business address and phone number. As part of our year-round efforts to promote small businesses to potential customers, we use this information to include merchants on the Map to help customers find new places to shop where they can save or earn bonuses. We apologize that this is information you did not want customers to see. Please know that we do try to prevent these situations by looking at certain indicators that help us determine if a business has a storefront or is online only. We are currently exploring additional processes to help prevent home addresses and personal information from appearing on the map.

Please follow the below steps to correct your information so it accurately reflects your storefront address if you have one, or you can appear on our Online Directory for businesses that do not have a storefront, or you can remove it altogether.

- 1. Log into your account here*
- 2. Click on your location. A page will display your location's public information as it will be seen on our Map and other marketing channels, provided you complete the steps that follow.
- 3. Click the edit icon on the right side of the page to update to reflect your business location's public information.

- a. To keep your business information on the Map or Online Directory: Make sure the checkbox is checked to indicate you want to get free exposure for your business by allowing your public business information to be seen on our Map and other marketing channels.
- b. To remove your information from the Map or Online Directory: Uncheck the checkbox to indicate that you do not want to get free exposure for your business by allowing your public business information to be seen on our Map and in other marketing channels. Please note that by unchecking this checkbox, you will not be included in Card Member recommendations and may not be included in various Card Member offers.
- 4. Click the "Save" button after making changes in each portion of your location details to save your updates.

Updates can take up to 3 days to be reflected on the Shop Small Map or Online Directory.

To log-in to your account, you will need your Tax ID/ EIN or Social Security Number and your business zip code or your User ID and password. If you are unable to login, or can't recall your credentials to login, you can call our Shop Small servicing center at 1-833-213-0506. We are available from 9am EST to 6pm EST, Monday through Friday. Card Members can also view the participating locations of offers that they have saved to their Card, regardless of how they were added.

40. How can I find places that take American Express near me?

American Express Maps displays qualifying[†] American Express Card-accepting businesses with a physical business location. The Online Directory within American Express Maps lists qualifying[†] businesses that only accept online transactions or those that do not have a physical business location.

41. Why don't I see a particular business when I search for it on the map?

There could be a few reasons why you are not seeing a business displayed on the map:

- 1. American Express Maps only returns 100 businesses for each search. Our system takes into consideration a proprietary mix of factors to filter to those 100.
- 2. Filtering by industry or entering more of the address information may return different search results.
- 3. The merchant may not be meet the criteria to qualify for display on American Express Maps.

42. I know of a merchant that does not accept American Express, what can I do?

There will always be more merchants to sign up for acceptance. Hundreds of thousands of businesses open and close every year. In some cases, some small businesses may not yet realize that they can now accept American Express. Ask them to try!

44. I've heard American Express has higher fees for merchants which is a reason they don't accept – is this true?

We've made efforts to tackle outdated misperceptions about accepting American Express, including the cost for merchants. We are helping merchants understand that things have changed. In fact, on average, there is little difference between the cost to accept American Express versus Visa and Mastercard¹.

¹ Based on estimated weighted averages for U.S. charge volume for merchants who accept credit cards from all three networks; may not be indicative of the rates paid by individual merchants. The average cost to accept American Express includes the discount rate, per-transaction fees, and estimated third party acquirer margins applied to the wholesale rate for wholesale charge volumes. The average costs to accept Visa and MasterCard are comprised of interchange, network fees (e.g., assessment fee and cross-border fee) and acquirer margin, and are based on published interchange tables, other publicly available data and third party commissioned research.

We also helped make it easier for our merchants – small, medium and large – to accept American Express. These efforts included the introduction of OptBlue in 2014 that enabled small businesses to accept American Express through their existing processor who sets the rate and facilitates the transaction, just as they do for other cards. We introduced new merchant-friendly policies and continued to show our commitment to small businesses through our Shop Small and Small Business Saturday movement, generating a record-high total of an estimated \$19.6 billion in sales for U.S. local businesses in 2019.
