# The power of American Express® Virtual Cards with Payhawk

We have teamed up with American Express to offer an easy way for you to manage your Card expenses and corporate spending. Once you add your eligible American Express® U.S. Business, Corporate, or Corporate Purchasing Card to Payhawk, you can issue Virtual Cards with built-in spending controls.[1] Enrollment is required and fees may apply.

Speed up month end. Control Card spending. Earn the rewards of your Card.[2]

Check out some of the ways you, your teams, and your company could benefit:

Better control and visibility.
Once you link your physical Card, your finance staff can see active Cards, spending month-to-date, and recurring subscriptions from our dashboard. You can also approve, modify, or cancel Virtual Cards for employees, freelancers, and contractors at any time.

Enhanced security.
Each recipient of an on-demand Virtual Card receives a unique 15-digit number, different from the underlying American Express Card funding account number. The Virtual Card provides added security, because it is a token good for a specific transaction, purchase amount, and time period.

Same rewards.
When you add your eligible Card to Payhawk to make payments, you earn the same rewards you currently earn but with the added benefit of being able to manage your spending in one place.

Efficient reconciliation.
Your American Express billing statement shows both your Virtual and physical Card transactions, helping to make reconciliation more efficient.

Mobile wallet provisioning.
You can send unique Virtual Cards to designated users, who can add them to their mobile wallets directly from their Payhawk Mobile App to make convenient and secure payments on your behalf.

Ready to get started?

Contact your Payhawk representative for details, or sign in to your account to enroll your eligible American Express Card.

[1] To generate American Express Virtual Cards through Payhawk you must be an American Express Corporate, American Express Business, or American Express Corporate Purchasing Card Member. Separate enrollment with Payhawk and American Express is required to utilize combined product offering. To make an American Express Card payment to a vendor through Payhawk, the vendor must be an American Express accepting merchant. There is no fee to generate American Express Virtual Cards. Certain features, upgrades, and additional payment methods may require separate activations and fees may apply. Payhawk is solely responsible for determining any and all fees associated with their product. Please contact your Payhawk representative to learn more.

[2] Not all Cards are eligible to get rewards. Terms and limitations vary by Card type.
