Effective 1 October 2022, Overlimit transactions on your American Express Card have been temporarily disabled. However, issuer-initiated debit of fee and charges can take the account over the assigned credit limit.

(v) Interest Free Credit Period

- Cardmember can enjoy up to 48 days free credit without any Interest Charges levied to the Credit Card Account. Interest is not payable on Charges other than Cash Advances and Balance Transfers only if:
- Cardmember has paid the full Closing Balance on the previous monthly statement by the payment due date and
- Cardmember pays the full Closing Balance on the current monthly statement by the payment due date and
- Cardmember has not availed of any Cash Advance or Balance Transfer.

The payment due date of a customer will be dynamic in nature and will vary from 18 days to 23 days from the statement generation date, depending on his previous month's payment behaviour.

Illustration: Transaction date: 2 June, Billing Cycle date: 1st of every month, Payment due date: 18 July, Interest free period = 2 June — 18 July = 47 days.

If the Cardmember has paid total amount due as per his previous statement in full, the Payment Due date for the current month will stand as 18 days from the statement generation date e.g. Billing cycle date: 1st of every month. If the Cardmember has paid total amount due for June in full, then the Payment Due date for the month of July would be 18 July.

If the Cardmember has not paid total amount due as per his previous statement in full, the Payment Due date for the current month will stand as 23 days from the statement generation date. For example: Billing cycle date: 1st of every month. If the Cardmember has paid less than the total amount due for June, then the Payment Due date for the month of July would be 24 July.

Interest Free Credit Period will not be applicable if any balance of the previous month's bill is outstanding, even if the Minimum Payment Due has been paid. The Bank shall report a credit card account as 'past due' to credit information companies (CICs) and levy late payment charges if the Minimum Amount Due on the card remains unpaid for more than 3 days from the Payment Due Date.

(vi) Finance (Interest) Charges for both Revolving credit and Cash Advances

Interest is payable at the monthly percentage rate on all Charges from the date the

Cardmember incurs the transaction until they are fully repaid, except where an interest free period applies.

- Interest, if payable, is calculated by multiplying:
- The daily balance of Charges on which interest is payable; by
- The daily percentage rate (monthly rate multiplied by twelve divided by 365); and then adding up the daily interest Charges for the applicable period.

Daily Interest Calculation

(The Daily Balance of Charges on which interest is payable) * (The Daily Percentage Rate) Daily Percentage Rate Calculation: $\frac{(\text{Monthly Rate} * 12) / 365}{100}$

In case the payment made towards the monthly statement of account for any particular month is less than the total interest and Applicable Taxes billed in that particular statement, the remaining interest amount will get added to subsequent month's outstanding and such shortfall in interest will attract interest on interest.

The interest rate charged on Credit Cards issued by AEBC for both Line of Credit Lending (LoCL) and Installment Lending (IL) categories is decided basis the following factors:

- Expected Cost of Funds
- Expected range of Revolve Rate on LoCL and IL categories
- Desired business margins on LoCL and IL categories
- Expected range of delinquency on LoCL and IL categories
- The rates charged by relevant competitors in the Industry.

Basis the above rationale, the charged by the Bank for both LoCL and IL category of loans should be above the MCLR and Base Rate published by the Bank. The current charged by the Bank, as mentioned in the Schedule of Fee and Charges is above the MCLR and Base Rate published by the Bank.

(k) SMA AND NPA CLASSIFICATION AND UPGRADATION

As per the Prudential Framework for Resolution of Stressed Assets and Prudential norms on Income Recognition, Asset Classification and Provisioning pertaining to Advances issued by RBI and amendments thereto from time to time, banks are required to classify the borrowers as special mention accounts (SMA) and Non-performing Assets (NPA) if the overdue is not paid on the due date fixed by the bank as per the categories mentioned in the below table:

Categories	Basis for classification — Principal or interest payment or any other amount wholly or partly overdue any other amount wholly or partly overdue
SMA-0	Up to 30 days
SMA-1	More than 30 days and up to 60 days
SMA-2	More than 60 days and up to 90 days
NPA	More than 90 days

The borrower accounts are flagged as overdue as part of day-end processes for the due date. Similarly, classification of borrower accounts as SMA as well as NPA is done as part of day-end process for the relevant date and the SMA or NPA classification date is the calendar date for which the day end process is run.

Example: If due date of a loan account is 31 March 2021, and full dues are not received before the lending institution runs the day-end process for this date, the date of overdue shall be 31 March 2021. If it continues to remain overdue, then this account shall get

tagged as SMA-1 upon running day-end process on April 30, 2021 i.e. upon completion of 30 days of being continuously overdue. Accordingly, the date of SMA-1 classification for that account shall be 30 April 2021.

Similarly, if the account continues to remain overdue, it shall get tagged as SMA-2 upon running day-end process on 30 May 2021 and if continues to remain overdue further, it shall get classified as NPA upon running day-end process on 29 June 2021.

Further, the borrower account classified as NPAs are upgraded as 'standard' asset only if entire arrears of interest and principal are paid by the borrower.

In case of Cardmember billing disputes/transaction disputes, American Express follows its dispute resolution policy/procedures whereby a temporary suspension is applied on the disputed transaction and case is investigated for the dispute and the dispute is closed. As a result of temporary suspension, the disputed transaction amount is not included in the overdue balance for the purposes of reporting to Central Repository of Information on Large Credits (CRILC) constituted by the Reserve Bank of India (RBI), Credit Information Companies (CICs) established under the Credit Information Companies (Regulation) Act, 2005, Information Utilities (IUs) established under the Insolvency and Bankruptcy Code, 2016, debt collection agencies and classification of borrower accounts as SMA as well as NPA, till such time that dispute is settled.

In case of restructuring:

1. The accounts classified as standard are immediately downgraded as non-performing assets (NPAs) and NPAs would continue to have the same asset classification as prior to restructuring, unless otherwise specified by RBI.
2. Conditions for Upgrade
 - a. For MSME accounts where aggregate exposure of the lenders is less than ₹25 crores: An account may be considered for upgradation to 'standard' only if it demonstrates satisfactory performance during the specified period.
 - b. For all other accounts that are not MSME: An account will be upgraded only when all the outstanding loan/facilities in the account demonstrate 'satisfactory performance' during the period from the date of implementation of Resolution Plan (RP) up to the date by which at least 10 per cent of the sum of outstanding principal debt as per the RP and interest capitalization sanctioned as part of the restructuring, if any, is repaid.
 - c. Other regulatory guidelines with regard to upgrade of an account may also apply on certain accounts as per applicable laws.

These instructions on SMA/ NPA classification of borrower accounts are applicable to all loans, including retail loans, irrespective of size of exposure of the lending institution.
