

Dining by Amex – Terms and conditions

The benefit may be used a maximum of one time per campaign period per Platinum account (main or Platinum supplementary card). American Express communicates active campaign periods via the Amex Experiences app and the offer is valid during the campaign period only.

The benefit is only valid at the restaurants that American Express communicates.

Each restaurant decides which weekdays that are available for reservations (Sunday–Thursday for most restaurants).

Reservation is required and the Cardmember must make the reservation via the link American Express communicates via the Amex Experiences app to use the benefit.

The benefit is not available for drop-in reservations. The benefit includes two complimentary dishes (starter and main course or main course and dessert) for the Cardmember and a guest. In case of exceptions, this is communicated in connection with the reservation and upon arrival at the restaurant.

Everything else ordered by the Cardmember and the guest is paid for with the Platinum Card at the restaurant. Upon your arrival, scan the QR-code and present the offer to the staff.

If the benefit is misused, the Cardmember will be charged 1 500 NOK for the dinner.

The benefit cannot be combined with other offers.
